

Hawboldt Marine Hoists

Hawboldt's Marine Hoists are designed and built for certification with DNV, Lloyds, API, ABS and BV. Our hoists are manufactured for the toughest marine conditions and temperatures as low as -20°C. Stock parts have been selected for the design to provide a shorter lead time.

The marine hoists come in three ratings, the MH-05, MH-10, and the MH-20 each designating their approximate full drum pull in tonnes.

WINCH MODEL	ROPE DIAMETER	MAX CAPACITY	BARE DRUM PULL	HOIST SPEED	WEIGHT
